

## Recommendations for transport costs and supplier evaluation.

### **Transport costs**

- All shipments experienced delays, indicating potential scheduling or traffic-related issues.
- Gauteng-to-WC have the highest cost/km consider renegotiating costs with suppliers.
- Air transport is the most expensive and should be reserved for urgent shipments.

### **Supplier evaluation**

- Gamma Freight has received the lowest score due to late deliveries and low-quality ratings. An alternative supplier may be required as they are currently unable to meet the demand of orders.
- Epsilon Express, with the highest ranking, can handle more volume. Increase orders and monitor.
- Beta Logistics has the lowest number of orders and continues to rank among the lowest. A supplier visit may be necessary to evaluate and address the underlying issues affecting their delivery performance.
